

JAN KÜSTER

I am a digital media graduate (M.Sc.) with project experience in educational research as well as in the private sector. During my studies I focused on e-assessment software and moved over to b2b software for IBM Notes Domino. Currently I develop and evaluate the next generation learning management system with Meteor based on an extensive nursing curriculum for healthcare education. I also love fitness, martial arts, videogames, news and Sci-Fi series.

» **Status:**

Meteor, Javascript, Bootstrap, MongoDB, Git, Consultant

» **Fields:**

Project Management, Software Development, Consulting

Fullstack JS Engineer, M.Sc. Digital Media,

» **Tech:**

Webstorm, Sourcetree, Terminal

» **Loves:**

Global Game Jam, Sci-Fi series, Stackoverflow, Fitness and Martial Arts

2015 / 07 - University of Bremen
Graduated as M.Sc. Digital Media
